RE: **Infrastructure & Operations Committee Report**

The Committee held its regular meeting on September 17, 2024 in Council Chambers. The following motion is coming forward as a result of the meeting.

1. CROSSWALK HIGHWAY 2 - ENFIELD

There is an approved capital project to install a crosswalk along Highway 2, Enfield. New information became available related to potentially large infrastructure changes for the area in the future. Prior to spending public funds on the project, the Infrastructure & Operations Committee considered either a change in direction for the project or proceeding as planned.

The Infrastructure & Operations Committee recommends to Council, *that Council continue Project 21-033, to complete the crosswalk project in Enfield with the awareness of the future potential infrastructure changes to the area.*

As Chair of the Committee, I so move.

2. ORGANICS PROCESSING FACILITY

Following an in-camera report during the Executive Committee meeting on September 17, 2024 Council endorsed funding application efforts towards the construction of an organics processing facility at the East Hants Waste Management Centre during the Council (Policy & In-Camera) meeting the same day.

As Chair of the Committee, I move the adoption of this report.
